**ONLINE LEARNING REQUIREMENTS**

Notre Dame de Namur University offers several programs in an online or hybrid format. In an online course, students will be able to view the syllabus, complete assignments and assessments, engage with varying course materials (videos, interactive presentations, assigned reading), participate in threaded discussions, interact with peers and the instructors, as well as review instructor feedback through our Canvas Learning Management System. Please log in to Canvas as soon as you have been given your user name and password to complete the Orientation Course, and once class starts, anticipate checking your student portal, Canvas and student email multiple times per week.  The following is offered as technical requirements to enable your reliance on your computer to access your courses and related systems.

As of January 2022, the following are the minimum system requirements that are needed to successfully access your courses on the Canvas platform.  Please note that Browser requirements are identified separately [here](#) and have been established by Canvas.
