

Return-to- School Illness Considerations

We encourage students who have tested positive for Covid to share that information with their professors, so that questions related to attendance and classwork can be flexibly addressed.

NDNU follows the general [guidelines](#) of the Centers for Disease Control and Prevention (CDC) and the County of San Mateo's Covid [guidelines](#), both of which have started to treat Covid like any other respiratory disease, including the flu (influenza) and RSV (Respiratory Syncytial Virus).

Please review the latest guidance from these two organizations. They encourage prevention and staying home when you are sick to avoid spreading the illness. Use their guidance to plan for your return to NDNU.
